Plug Heater in:

This heater is designed to slowly heat glass, and then the air inside the terrarium. The heater will take a minimum of 6 hours before you can get an accurate temperature reading in your terrarium. If desired, the heater can be used along with a thermostat to control the temperature inside the terrarium.

Helpful Hints:

Use a ReptiTherm Dual Thermometer Humidity Gauge to monitor the temperature in your terrarium. This heater will raise the ambient temperature from 2 to 10 degrees Fahrenheit (1 to 5 degrees C) depending on the location of the heater and where the temperature is measured in the terrarium.

Cleaning:

Make sure that this heater has been unplugged and has cooled down before cleaning the terrarium.

CAUTION:

Please read the following before installing your new Snake Strip™ U.T.H. Under Tank Heater.

- Any of the following situations constitutes improper use of the heater and can lead to stress cracks and/or other hazards:
- A sand substrate deeper than 1.5” (3.8 cm) when the heater is mounted on the outside bottom of the terrarium.
- Placing or installing the heater inside the terrarium.
- Placing a heat bulb or ceramic heat emitter directly above the area where the heater is installed, resulting in a high build-up of heat.
- Any other use not described in this manual is not covered by the warranty.
- For indoor use only.

WARRANTY:

Zoo Med Laboratories, Inc. (Zoo Med) warrants this product to be free of defects in material and workmanship under normal use and service for one year from the date of purchase. The obligation under this warranty is limited to the repair or replacement, at Zoo Med’s discretion, of the product or any part thereof, when the product is returned to Zoo Med, freight prepaid. No claim shall be allowed under this warranty if, in the opinion of Zoo Med, this product has been subject to accident or improper usage, including but not limited to: water damage, improper storage, accidental dropping, modification, etc. This warranty is in lieu of all other warranties and representations expressed or implied. Please include your receipt, full name, address, phone number, and email address along with a note explaining failure when sending any product back to Zoo Med. Please allow 4 to 6 weeks for repair or replacement.
