WELCOME TO ZOO MED LABORATORIES

Where does happiness come from? People have a lot of answers for this, but they'll generally say you know you've found it when you experience that "warm and fuzzy feeling."

Although, as a reptile company our pets are cold and scaly instead of warm and fuzzy, they still give us that "warm and fuzzy" feeling inside.

- When our customer service team gets a call from an excited family setting up their first reptile, our joy instantly gives us the "warm and fuzzy" feeling.
- When at one of the 75+ reptile shows we sponsor each year, someone finds that long-coveted dream reptile, we see that "warm and fuzzy" feeling radiating all over their face.
- When knowledge and passion in the community grow because of dedicated clubs and organizations or when USARK defends our rights as pet keepers from uninformed lawmakers, we get that "warm and fuzzy" feeling.
- When a product we've poured hours of research and development into finally gets released, we get that "warm and fuzzy" feeling.

We hope to return the joy we've experienced by providing tools for your petkeeping, answers to your customer service questions, support to clubs, organizations, and reptile shows, and innovation in our product development. After experiencing the "warm and fuzzy" feeling for almost 50 years, we are grateful to be filled to the brim with happiness that comes from this community and your support.

REPTIHABITAT™ PRO 120

Give your pet room to roam in Zoo Med's new ReptiHabitat Pro 120. This spacious 2' x 2' x 4' PVC reptile enclosure (approx. 120 gallons) is designed for both functionality and durability. Perfect for species like bearded dragons, ball pythons, blue tongue skinks, small monitors, and small tortoises. It features:

- Lockable sliding glass doors with state-of-the-art side latches ensure security, while the durable glass resists flexing.
- A 4.5" tall glass front panel retains substrate without blocking your view.
- Side vents provide cross-ventilation, and an adjustable cord port allows safe, tidy access for cables and misters.
- The heavy-duty metal mesh top supports UV and infrared light penetration, with screen reinforcement bars for safe placement of lighting and heating fixtures.
- Moisture-resistant PVC panels help insulate heat and withstand high humidity.
- Is easy to assemble, lightweight and stackable.

ITEM# NT-120 | ~120 Gallon Kit | 2'x2'x4' (61x61x122 cm)

28 gallon - 36"x18"x10" (91x46x25 cm):

LOW BOY™

Available in 28 & 50 gallon sizes! This low-profile tank can be used as a terrarium or an aquarium.

Terrarium: Perfect to use as a grow-out tank or breeder flat. The large footprint of these tanks provide ample ground space for fossorial and burrowing reptile or amphibian species. The included aluminum screen top provides ventilation while keeping pets safely contained.

Aquarium: An ideal tank for breeding animals, a devoted coral frag tank, or even a lagoon-style display. It can be used as a fresh or saltwater aquarium or even for semi-aquatic or terrestrial animals like newts and salamanders.

50 gallon - 48"x24"x10" (122x61x25 cm):

DOUBLE DOOR REPTIHABITAT™

Use your imagination to build the perfect habitat for your pet starting with the Double Door ReptiHabitat™ Terrariums. Two snap-closure, lockable* glass front doors allow for easy viewing and animal access. The stainless steel screen top won't rust. Includes front and top ventilation for proper air-flow and minimizing humidity build-up. A water-tight base allows for a water feature with or without a waterfall incorporated. Six exit slots available in the screen top for power cords or airline tubing with "hold down" clips.

*lock not included

10 GALLON SCREEN COVERS

Zoo Med's Screen Covers feature one piece plastic frame construction that clips on tight to prevent pets from escaping. Made of non-rusting galvanized steel wire and double sealed for safety. Some models have access doors for easy routine maintenance (i.e. feeding crickets, etc.). An exclusive Clamp Lamp Bracket allows you to secure a clamp lamp to the top of your screen!

Item # UPC

ITEM# SC-10 | Screen Cover w/ Clamp Lamp Bracket

ITEM# SC-10D | Screen Cover w/ Feeding Door

NATURALISTIC TERRARIUM®

6 Exit Slots

6 slots for power cords or airline tubing with "hold down" clips.

Full Stainless Steel Screen Top

Will not corrode and accommodates a dome lamp fixture (no plastic bar in the way). Special screen keeps feeder insects in while allowing greater UVA & UVB penetration throughout the terrarium.

Full front Glass Door

No center "glass seam" allows for easy viewing. Snap enclosure with lockable door (lock not included).

Front & Top Ventilation

Helps to create proper air-flow and minimize high humidity build-up.

Water-Tight Base

Allows for a water feature with or without a waterfall incorporated.

PALUDARIUM

WHAT IS A PALUDARIUM?

A Paludarium is part terrarium and part aquarium that mimics wildlife habitats found along banks of rivers, stream and other sources of water. Many plants, reptiles, fish, invertebrates and amphibians call these areas home.

CANOPY

Home to a number of plants & tree-dwelling reptiles/ amphibians.

LAND

Where many plants and semi-aquatic animals live.

WATER

Occupied by plants, fish, invertebrates and aquatic or semi-aquatic animals.

PALUDARIUM

Provide your pet with a canopy, land and water feature all in one enclosure with a Zoo Med Paludarium. Featuring snap-closure, lockable* front door(s), front and top ventilation for natural air flow and a water tight base for an aquarium or waterfall.

*Lock not included

DELUXE REPTIBREEZE® CHAMELEON KIT

Includes:

- NT-12 ReptiBreeze® Enclosure
- ReptiSun® T5 HO Terrarium Hood - 14"
- ReptiSun® 5.0 UVB T5 HO Lamp - 15W
- Mini Deep Dome Lamp Fixture
- Repti Basking Spot Lamp - 75W
- Digital Thermometer & Humidity Gauge
- ReptiBreeze® Substrate Bottom Tray
- Naturalistic Flora Plant - Large
- Naturalistic Flora Flexible Hanging Vine
- ReptiVine™

ITEM# NT-12CK | 18"x18"x36" (46x46x91 cm)

Zoo Med's quality starter kit for all Old World Chameleon Species including:

- Veiled chameleons
- Panther chameleons
- Jackson chameleons
- Other chameleon species

*Ideal for juveniles or smaller species

REPTIBREEZE® IGUANARIUM

An open-air enclosure for large arboreal lizards such as medium to sub-adult iguanas and Old World chameleons. Made of PVC (plastic) coated wire to help prevent nose rubbing. Front and top opening doors allow for easy animal access. Includes 4 casters (wheels) to move cage outside for natural sunlight. A removable "basking" shelf is included.

ITEM# IA-30 | 36"x18"x48" (91x46x122 cm)

REPTIBREEZE® SUBSTRATE BOTTOM TRAY

A plastic tray for all Zoo Med aluminum screen enclosures. It is watertight to catch dripper/spray/misting water and holds all types of substrates.

NATURALISTIC FLORA™ FLEXIBLE HANGING VINE

Zoo Med's Flexible Hanging Vine is a life-like tropical plant that can be twisted and wrapped around decorations in your terrarium for the "natural" forest look.

ITEM# BU-52 | Small - 70" (178 cm)

REPTIVINE™

Zoo Med's ReptiVine™ adds a flexible and functional climbing surface to your terrarium or paludarium and gives your animals greater access to canopy space and basking sites. Great for all tree-dwelling arboreal reptiles.

ITEM# BU-53 | 40" (102 cm)

SPIDER WOOD

Spider-like limbs are great for climbing lizards and snakes, making Spider Wood perfect for terrariums or paludariums. Pressure washed and heat treated, this wood is very low in tannins which will not discolor water.

TERRARIUM ACCESSORIES

NEW

JAVA WOOD HUTS & STUMPS

Give your reptiles a safe, natural place to feel secure with this unique hide made from hollowed pieces of genuine Java wood. Each hide is hand-crafted from retired coffee bean trees, making it a sustainable and eco-friendly choice for your terrarium.

- **Natural & Unique:** No two hides are the same — each piece has its own beautiful grain and shape, bringing a touch of nature right into your enclosure.
- **Versatile Shelter:** Ideal for reptiles, amphibians, invertebrates, and other small animals that need a cozy place to hide and feel safe.
- **Humidity Chamber Ready:** Simply add damp moss or substrate inside to create the perfect microclimate for species that thrive in higher humidity.

COCO NUT HOUSE

Natural coconut hide provides shelter for a variety of small tropical or arid species! This is a natural alternative to plastic or resin hiding areas. Zoo Med's Coco Nut House adds privacy to any reptile, amphibian, or invertebrate habitat. A perfect way to help pets feel safe and secure while reducing stress.

ITEM# HH-C

REPTISHELTER™

Zoo Med's ReptiShelter™ 3-in-1 Cave gives reptiles and amphibians a naturalistic hide, a place to shed and an egg laying chamber. By adding the appropriate substrate, it creates a humid "micro climate" similar to what they would find in burrows or under rocks or logs in nature. This micro climate can help prevent shedding/respiratory disorders and egg binding.

Keep your pets and children safe with the Repti Lock! Easy to operate three position tumbler can be set to any desired combination. Designed for use with Zoo Med's Naturalistic Terrariums®, Paludariums, and Double Door ReptiHabitats.

ITEM# NT-TL

ADJUSTABLE SNAKE HOOK

This fully collapsible Snake Hook adjusts from 7 1/4 to 26" (18 to 66 cm) and fits into pocket when collapsed. Has an easy grip handle.

Ideal for:

- Moving small snakes.
- Handling small snakes in the wild.
- Moving cage furniture in your habitat to inspect condition of your animals.

ITEM# TA-25

SUBSTRATE

WHAT IS BIOACTIVE?

The term “bioactive” is a miniature ecosystem where small invertebrates break down waste from your pet to make nutrients available for live plants to consume.

Live Plants

As waste is broken down by the Clean-up Crew, plants utilize the nutrients for growth.

Leaf Litter & Toppers

Leaf Litter, Terrarium Moss, Frog Moss, and Cork pieces are excellent choices for providing cover and nutrition for your Clean-up Crew as well as slowing evaporation.

Clean-up Crew

A Clean-up Crew consists of invertebrates and microorganisms that work together to convert waste from your pet into usable nutrients for live plants.

Bioactive Substrate

A bioactive substrate combines a variety of different materials that together retain moisture, resist compaction, and provide a stable environment for plant roots and Clean-up Crew.

TROPICAL BIOBLEND

A bioactive-ready substrate blend for tropical terrariums that contains:

- **REPTISOIL** is a 4-part soil substrate mix that combines humus, peat moss, sand, and carbon to create an excellent base for a bioactive habitat.
- **REPTIBARK** adds structure to the substrate which resists compaction, providing drainage and aeration.
- **SPHAGNUM MOSS** is a long-lasting ingredient which resists decay and retains moisture, boosting humidity for tropical environments.

ITEM# TBB-8 | 8 dry qt. (9 L)

TERRARIUM LEAF LITTER

Zoo Med's Leaf Litter is the perfect final touch for your natural terrarium. Ground dwelling creatures such as box turtles, snakes, skinks, salamanders, frogs and insects will find comfort in the cover it provides. Leaf litter is an essential part of any Bioactive habitat because it provides living space as well as nutrition for decomposers like isopods (roly polys). Zoo

Med's Leaf Litter consists of natural Jackfruit Leaves (*Artocarpus heterophyllus*) that will slowly break down over time to add to the natural soil composition in any bioactive terrarium.

ITEM# TLL-10 | 1 oz (30 g)

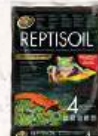

TROPICAL BIOACTIVE SUBSTRATE KIT

This kit is the perfect foundation for your bioactive habitat! The right substrate mix is critical to a successful bioactive habitat therefore the contents of this kit were carefully selected to help your pets, plants, and cleanup crew collectively flourish. Included is enough substrate for a 10 gallon tank.

Includes:

- ReptiSoil™ (Item# RSS-4)
- Terrarium Moss (Item# CF2-S)
- Leaf Litter Substrate Topper (Item# CT-88)

ITEM# BAK-1

REPTISOIL™

A special blend of humus, peat moss, sand, and carbon used to create bioactive terrariums and tropical set-ups. Contains coconut carbon to provide a porous surface for beneficial bacteria to colonize and reduce persistent odors. Ideal for tropical lizards, amphibians, box turtles, hermit crabs, tarantulas and other invertebrates. Mix with ReptiSand® or Excavator Clay® for desert species like bearded dragons and leopard geckos. Allows for natural behaviors such as burrowing and egg laying.

Item #	UPC

EXCAVATOR®

CUSTOMER FAVORITE

This clay burrowing substrate allows reptiles to dig tunnels and burrows just like they do in nature. You can mold and create multi-level terraces and burrows in your reptile’s terrarium making your reptiles feel like they’re “at home” in their natural habitat. Excavator® holds its shape so burrows and tunnels won’t collapse. All Natural! No added dyes, colors, or chemicals.

HYDROBALLS®

Use as a base layer underneath substrate to create an underground water table in Naturalistic Terrariums®. Add water to HydroBalls® to create a natural “aquifer” and increase humidity levels for all tropical species! Add a water pump to the HydroBalls® layer to create a waterfall.

ITEM# VC-10 | 2.5 lb (1.13 kg)

AQUATIC RIVER PEBBLES

A natural pebble substrate for aquatic turtle habitats that creates a river bed look in your enclosure. Safe for all sizes of aquatic turtles. Easy to clean/reusable.

ITEM# TP-10 | 10 lb. (4.5 kg)

FROG MOSS

A beautiful, decorative living moss to accent your terrarium. Frog Moss (also called “Pillow Moss”) will come back to life and grow in proper terrarium conditions. It increases humidity in terrariums for all high humidity loving species of reptiles, amphibians, and invertebrates.

ITEM# CF3-FM | 80 cubic inches (1.31 cu dm)

NEW ZEALAND SPHAGNUM MOSS

This true sphagnum moss from New Zealand holds more water and stays moist longer than any other type of moss! Natural compounds in the moss prevent it from decomposing in humid environments. Excellent for use as an egg-laying and incubation medium for a variety of reptiles.

REPTI SAND SCOOPER

A heavy duty scoop for spot cleaning sand substrates. Angled edges for cleaning corners. Perfect for Repti-Sand® or Vita-Sand®.

ITEM# TA-30

DELUXE SHOVEL SCOOPER

Larger size made of stainless steel for high moisture applications. For spot cleaning sand substrates. Wide, low profile “shovel” design for hard to reach corner areas.

ITEM# TA-31

WATER ACCESSORIES

PATENTED

REPTIRAIN®

Improved, automatic misting machine with a stronger and quieter pump. Improved spray pattern with four programmable spray interval settings: every 1,3, 6, or 12 hours and four spray duration settings: 15, 30, 45, or 60 seconds. Will mist up to TWO terrariums at once! Portable for indoor or outdoor use. Great for terrariums, bird cages, aviaries, or indoor gardens. Includes an AC adaptor, or will run on batteries (4 C batteries, not included). Includes adjustable mounting hooks, 4 point suction cup hold down, and remote nozzle extension. One year warranty. Patented, Zoo Med exclusive!

ITEM# HM-10

PATENTED

CUSTOMER FAVORITE

REPTI FOGGER™

Create a tropical rainforest in your terrarium using Zoo Med's ReptiFogger™ Terrarium Humidifier. Dramatic cool mist increases animal comfort, relative humidity, and visual appeal. The ReptiFogger™ can be used to increase the overall humidity level in smaller terrariums, or to create a humid "micro climate" in larger terrariums. Use with Zoo Med's Environmental Control Center for precise humidity and temperature control in your terrarium!

ITEM# RF-10

MULTIPOINT FOGGER ATTACHMENT

Easy to use attachment expands your existing ReptiFogger™ hose into 3 hoses. An excellent way to provide humidity in 3 terrariums from one fogger! Great for breeders. Suction cup bracket included for discreet mounting. Adjustable hose length, 9"- 41" (23 cm -104 cm).

ITEM# RF-17

NEW

REPTIMISTER SPRAYER

Use the ReptiMister daily to provide drinking water droplets, water plants, and maintain proper humidity levels.

- Large 2-liter capacity
- Adjustable spray pattern, ranging from a fine mist to a stream
- Built-in pressure release valve
- BPA-free materials!

ITEM# HM-40

REPTI COOLER

Lowers ambient temperature through evaporative cooling by up to 10°F, just add water! Great for seasonal cooling to encourage breeding response. Quiet 3-speed fan with directional air vent!

ITEM# RC-10

REPTIRAPIDS LED WATERFALL

Beautify and light up your terrarium with this natural looking waterfall with special waterproof LED lights! Adds beneficial humidity to your terrarium. Stimulates natural drinking behaviors in many species of lizards (like chameleons). Separate power cords allow for independent timer control of LEDs and waterfall.

HUMIDITY PLUS™ SILICONE TERRARIUM COVER

Maintaining high humidity in your terrarium just got easier! This silicone mat minimizes moisture loss to create an ideal, tropical environment. Just place the mat on top of your existing terrarium screen. Trim it to fit smaller habitats, or use multiple pieces to cover larger terrariums! This safe, non-toxic, high heat tolerant material is easy to cut and can be trimmed to fit any size terrarium or create space for UV lights, heating elements, and ventilation.

ITEM# NT-SC

REPTI ROCK RESERVOIR™

A deluxe reptile water dish with a 22 oz. (0.65 L) water reservoir. The large reserve provides constant fresh water, while the small basin discourages reptiles from fouling their water. Includes an “insect guard” which prevents insects and small lizards from entering the reservoir and getting stuck. Extra wide base prevents accidental tipping and spilling.

ITEM# RR-10

BIG & LITTLE DRIPPER™

Zoo Med's Drippers simulate natural rainfall and provide humidity for captive reptiles. A folding handle lid allows you to suspend the dripper above the enclosure. Especially helpful for animals that do not readily drink standing water and instead drink “dew” from leaves (i.e. Old World Chameleons).

ITEM# LD-1 | Little Dripper™ | 70 oz. (2 L)

TERRA PUMP™ AQUATIC HABITAT DRAIN PUMP

Simplify water changes with Zoo Med's Terra Pump Aquatic Habitat Drain Pump! The powerful motor will drain most habitats in under 5 minutes and will refill with the same speed. The Terra Pump is engineered with side mounting suction cups at the intake line, so you can secure the device to the glass and have it auto shut off once you've drained to the desired level. When it's time to refill the habitat, you can avoid multiple trips with heavy buckets by placing the pump in a bucket of clean water and having it effortlessly refill your habitat. The pump has a “5 feet max head”, which means it's powerful enough to deliver water into the habitat 5 feet above the reservoir it's pumping from. Works with freshwater or marine aquariums, paludariums, and turtle tanks.

ITEM# TC-70

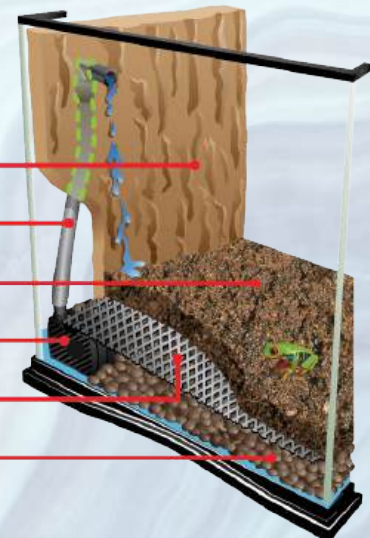

NATURALISTIC TERRARIUM® WATERFALL KIT

Incorporate a beautiful waterfall feature in your terrarium or paludarium!

Includes:

- Water Pump
- Flexible Water Tube - 18.5" long

SNAKE STRIP™ U.T.H. UNDER TANK HEATER

Perfect for snakes! The narrow strip of the Snake Strip Under Tank Heater is the preferred shape by snake breeders worldwide. It creates the perfect thermal gradient by heating just the rear portion of the habitat. Permanently adheres directly to glass for optimum heat transfer. Uses just 10 watts.

ITEM# RH-11 | 3.5"x18" (9x46 cm) | 10 gal or more

OUTDOOR USE REPTITHERM® HABITAT HEATER

The ReptiTherm® Habitat Heater is an industrial strength heater for heavy tortoises and other large reptiles. Made from easy-to-clean, moisture-proof, high density polyethylene plastic. Mounting rails are molded into the heater to allow for secure placement on the floor or the side of the enclosure. Automatic thermostat protection shuts-off heater at 119°F (48°C) to prevent overheating. The LED light indicates when the heater is "on".

ITEM# RH-20 | 18"x18" (46x46 cm) | 40 Watts

REPTICARE® ROCK HEATER

The insulated nichrome wire element inside the ReptiCare® Rock Heater creates even heat throughout the rock with no "hot spots."

It's the only rock heater with a full coverage, completely encapsulating heat element, and made with a custom, 100% hydrated rock material that is twice as strong as cement or pumice. Its surface is washable. UL rated for safety.

Use with Zoo Med's Wire Cage Clamp Lamp (pg. 37). Do not use in an enclosed "dome" fixture.

REPTICARE® INFRARED HEAT PROJECTOR

Help your pet thermoregulate safely and efficiently with this deep-penetrating heat projector. This technology is a natural way to bring sun-like heat into your pet's terrarium or paludarium. Deep-penetrating wavelengths are energy rich and make their way into an animal's body, warming them to their core and aiding in thermoregulation, digestion, egg development, and shedding. Use day or night as this infrared heat projector will not disrupt your pet's sleep cycle. 1 year manufacturer's warranty. When used appropriately, these long-lived heaters should provide you and your pet with years of use.

REPTIBATOR®

Zoo Med's digital egg incubator uses a pulse proportional thermostat for stable temperature regulation from its rigid 55 watt heating element. Multiple water reservoirs are molded into the incubator base, and flow-through ventilation and sponge inserts are included for even evaporation and humidity levels within incubator. It is easily controlled using the LCD display. There's an LED light indicating when power is going to the heating element, and you can program an alarm when temperatures go above your desired settings. There are built-in memory settings in case of power failure. A clear cover allows for easy egg inspection without opening incubator.

Temperature Range: 59°F to 104°F (15°C to 40°C).
Humidity Range: 10%-95% relative humidity.

ITEM# RI-10

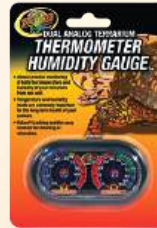

HIGH RANGE REPTILE THERMOMETER™

Liquid crystal thermometer for all types of enclosures. Easy-to-read crystal coloring.

Temperature Range: ITEM# TH-10

70°F to 105°F
 (21°C to 40°C)

DUAL ANALOG THERMOMETER & HUMIDITY GAUGE

Allows monitoring of both the temperature and humidity of your terrarium from one unit. Hook and loop backing enables easy removal for cleaning or relocation.

Temperature Range: -12° to 100° F (-29° to 38° C)

Humidity Range: 0% to 100%

ITEM# TH-27

DIGITAL TERRARIUM THERMOMETER™

Ideal for wet or dry conditions, such as terrariums, aquariums, or reptile incubators.

Includes a 39" long temperature probe, battery, and mounting suction cups.

Temperature Range: -10°F to 140°F
 (-23°C to 60°C)

ITEM# TH-24

DIGITAL COMBO THERMOMETER & HUMIDITY GAUGE

This quick-reading digital hygrometer and thermometer measures heat and humidity in different locations with independent probes. Battery and suction cups included.

Temperature Range: -10°F to 140°F
 (-23°C to 60°C)

Humidity Range: 0% to 100%

ITEM# TH-31

REPTITEMP® DIGITAL INFRARED THERMOMETER

A small, pocket sized, point and click infrared thermometer. Includes Min/Max function and

Centigrade/Fahrenheit switch. Used to measure terrarium temperatures, basking areas, incubation temperatures and egg container temperatures.

Temperature Range: -28°F to 230°F (-33°C to 110°C)

REPTISUN® 10.0 UVB T8

Award-winning, industry standard UVB lamp for reptiles. A full 10% UVB output allows vitamin D3 synthesis to occur naturally. It helps to prevent or reverse metabolic bone disease commonly seen in captive reptiles. The ReptiSun® 10.0 T8 is effective for UVB induced photoconversion of vitamin D3 in reptiles' skin at distances up to 24" (61 cm). Refer to UVB chart on page 28 for details.

WARRANTY

Zoo Med's entire UVB lamp collection transmits beneficial UVB lasting a full year allowing you to change bulbs less often.

Replace UVB lamps each year. Look for the "First Use Date" box on REPTISUN® lamps or sign up for the UVB reminder at: zoomed.com/uvb-reminder

UVB FOR REPTILES:

What Is UVB? Most reptiles require exposure to UVB to produce vitamin D3, which is essential for them to use the calcium from their diet. The sun provides UVB in nature, however, in your home you will need to provide UVB by using specialty lighting designed for reptiles.

What is the UV Index (UVI)? The UV Index (UVI) is a measure of UV radiation. The wavelengths measured are those that contribute most to a reptile's ability to manufacture their own vitamin D3.

What Zone Should I Provide for my Animal? Every habitat should provide a photo gradient with zones that go all the way down to 0 UVI, which allows animals to photo-regulate, or control their exposure to UVB. The upper zone limit should be based on your animal's unique natural basking behavior.

ZONE	UVI READING	WHAT ANIMALS LIVE IN THIS ZONE?
DANGER	>7	Danger - No animals should be in this zone
IV	2.6-3.5+	Mid-Day Baskers
III	1.0-2.6	Mostly Full Sun - Occasional Partial Sun
II	0.7-1.0	Mostly Partial Sun - Occasional Full Sun
I	0.4-0.7	Shade Dwelling and Crepuscular Species

How to use these charts:

1. Determine what zone best describes your pet.
2. Measure the size of your enclosure from the face of the lamp to the basking site.
3. Choose a lamp that can provide the correct zone at your pet's basking site.
4. Remember to make sure that there is a gradient of light all the way down to "0" UVI allowing your pet to retreat.
5. Some reflectors may increase a lamp's output and screens may reduce the UVB that reaches your pet. To know precise UVI, you can use a UV Index Meter (ST-7).

With a proper photoregulation setup, reptiles will have access to a variety of zones

UVI	0 to 1		1 to 2	2 to 3	3 to 6	>7
Zone	I		II	III	IV	DANGER
ANIMALS THAT LIVE IN THIS ZONE	Shade / Partial Sun		Mostly Full Sun	Mid Day Baskers		
	0.4 to 0.7	0.7 to 1.0	1.0 to 2.6	2.6 to 3.5+		
Crested Gecko	Anole		Iguana	Bearded Dragon		
Corn Snake	Eastern Box Turtle		Margined Tortoise	Uromastyx

REPTISUN® COMPACT FLUORESCENT LAMPS

The ReptiSun® Compact Fluorescent Lamps use a special UVB transmitting quartz glass for maximum UVB penetration. These energy efficient compact fluorescent lamps screw into standard threaded sockets. Lamp can be oriented either vertically or horizontally in your reptile hood or clamp lamp fixture. UVB emissions help prevent or reverse metabolic bone disease, and UVA increases feeding, mating, and other natural behaviors.

REPTISUN® 5.0 UVB:

- UVB, UVA and full spectrum visible light
- UVB Output Range*: 3-16 inches.

REPTISUN® 10.0 UVB:

- UVB, UVA and full spectrum visible light
- UVB Output Range*: 5-24 inches.

*Refer to UVB Chart on page 28 for details.

* Perfect for Mini Deep Dome Lamp Fixtures and Naturalistic Terrarium® Hoods. (pg. 35)

REPTISUN® MINI COMPACT FLUORESCENT LAMPS

The ReptiSun® Mini Compact Fluorescent Lamps use a special UVB transmitting quartz glass for maximum UVB penetration. Cool burning mini compact fluorescent bulbs screw into standard threaded sockets. Lamp can be oriented either vertically or horizontally in your reptile hood or clamp lamp fixture. UVB emissions help prevent or reverse Metabolic Bone Disease and UVA increases feeding, mating, and other natural behaviors.

REPTISUN® 5.0 UVB:

- UVB, UVA and full spectrum visible light
- UVB Output Range*: 3-10 inches.

REPTISUN® 10.0 UVB:

- UVB, UVA and full spectrum visible light
- UVB Output Range*: 5-24 inches.

REPTISUN® UVB/LED

The ReptiSun UVB/LED provides your reptile with crisp white light, UVB and UVA all in one lamp, and lets you enjoy the energy savings that cutting-edge LED lighting delivers. Our state of the art Japanese made UVB diodes are protected by a high-quality UVB-transmitting quartz glass cover with durability and longevity in mind. The 2nd Generation of this revolutionary lamp has four additional UVA chips (two 325nm and two 340 nm) and even more visible LED chips (for greater brightness). These new UVA chips expand the light's ability to regulate vitamin D3 production by targeting the area of the light spectrum responsible for this.

- The most efficient way to provide UVB
- Usable UVB up to 40" (102 cm)
- 18 Watt, 500 Lumens
- UVB diodes last up to 4 years or 20,000 hours

4 Additional UVA Chips

NEW

REPTISUN® 2.5 UVB T5 HO (HIGH OUTPUT)

Zoo Med's ReptiSun® 2.5 provides shade-level UVB for forest floor residing pets, cryptic baskers, and crepuscular species. This lamp is also suitable for pets prone to climbing high into the canopy of their enclosure, such as geckos, snakes, and frogs, without exposing them to unsafe high-level UVB. There are many species that experience lower UVB levels in their natural habitat, and the ReptiSun® 2.5 delivers safe and effective UVB up to 22 inches (56 cm) away), in addition to UVA, and visible light for these animals. Compatible with our existing line of T5HO hoods, and tested for a full year of UVB output, the ReptiSun® 2.5 offers the quality that customers expect from our ReptiSun® product line.

ITEM# ES5-15

REPTISUN® MEGA COMPACT UVB LAMP

The ReptiSun® Mega Compact UVB Lamp is a self-ballasted compact fluorescent lamp with usable UVB reaching up to 42" away. The unique shape allows for wide and even UVB output guaranteed for 12 months.

- UVB Output Range: 11-42 inches.

Refer to UVB Chart on page 28 for details.

ITEM# FS-C65 | 65 Watt

Great for large reptiles including:

- Sulcata Tortoise
- Chuckwallas
- Iguanas
- Frilled Dragons
- Tegus
- Groups of Marginated, Russian or Redfoot Tortoises
- Monitors
- And more!
- Uromastyx
- Water Dragons

BEST SELLER

POWERSUN® UV

The preferred UVB lamp choice among zoos, veterinarians, and professional herpetologists, this Self-Ballasted Mercury Vapor UVB Lamp provides essential UVA, UVB, light, and heat all in one lamp! Used to prevent (and treat) metabolic bone disease in reptiles. Screws into a standard Clamp Lamp fixture with a ceramic socket that is rated for the appropriate wattage.

REPTISUN® LED TERRARIUM HOOD

Bring out your animal's true colors with Zoo Med's new ReptiSun® LED. The extremely high color rendering index (94 CRI) makes your plants and animals' red coloration appear much more vibrant and true to life compared to common LED strip lighting. Light up your pet's habitat with the brightest reptile LED on the market, and supercharge your live plants with best-in-class PAR and PPFd values. Create naturalistic sunrise and sunset effects by gradually increasing the light intensity in your pet's habitat in the morning and gradually decreasing it in the evening. It is dimmable, programmable, and has an IP65 waterproof rating, so you can use it confidently in the most humid tropical habitats.

MINI DEEP DOME LAMP FIXTURE

An extra long reflector dome that extends beyond the face of the lamp, preventing the lamp from “sticking out”. Includes a ceramic socket for use with lamps up to 125 watts. A polished aluminum dome for maximum light and heat output. An on/off switch allows easy control of lighting device. UL rated for safety.

ITEM# LF-18

MINI COMBO DEEP DOME DUAL LAMP FIXTURE

Two mini fixtures in one for maximum convenience. Dual fixture allows for multiple lamp combinations including UVB lamps, daytime heat lamps, and nighttime heat lamps with a 125 watt maximum per socket or 200 watts combined. Polished aluminum domes for maximum light and heat output. Includes dual on/ off switches for greater convenience. Patented Zoo Med design.

ITEM# LF-19

Polished aluminum domes increase light & UV output up to 30%

DEEP DOME LAMP FIXTURE

An extra long reflector dome extends beyond the face of the lamp, preventing the lamp from “sticking out”. Perfect for use with Zoo Med’s PowerSun® UV lamps and ReptiSun® UVB Compact Fluorescent lamps. Highly polished aluminum inside greatly increases UVB and UVA output! Ceramic base! For use with lamps up to 160 watts.

ITEM# LF-17

COMBO DEEP DOME DUAL LAMP FIXTURE

Two lamp fixtures in one for maximum convenience. Polished aluminum domes for maximum light and heat output. Deep dome extends beyond the face of the lamp preventing the lamp from “sticking out”. Dual ceramic sockets for use with lamps up to 160 watts* (each socket) or 300 watts combined. Allows for multiple lamp combinations including UVB lamps, daytime heat lamps, and nighttime heat lamps. Includes dual on/off switches for greater convenience. Patented Zoo Med design.

ITEM# LF-25

NATURALISTIC TERRARIUM® 12” HOOD

Made to fit 12” (30 cm) wide Naturalistic Terrariums® (Zoo Med item# NT-1 or NT-2 and Paludarium NT-2P). A single socket hood with reflector for increased

heat or UVB output. Great for use with ReptiSun® UVB Compact Fluorescent bulb, Daylight Blue™ Reptile Bulb or Nightlight Red™ Reptile Bulb. UL rated for safety.

ITEM# LF-50

NATURALISTIC TERRARIUM® 18” HOOD

Made to fit 18” (46 cm) wide Naturalistic Terrariums® (Zoo Med item# NT-3, NT-4, NT-5, and Paludarium NT-5P). Includes built-in reflector and two sockets for heat and UVB lamps. Use with Zoo Med’s ReptiSun® UVB Compact Fluorescent Lamps for UVB and UVA. Use Zoo Med’s Daylight Blue™ Reptile Bulb for daytime heat or Zoo Med’s Nightlight Red™ Reptile Bulb for 24-hour heat. UL rated for safety.

ITEM# LF-55

Peters' Banded Skink
Scincopus fasciatus

DELUXE PORCELAIN CLAMP LAMP & DELUXE PORCELAIN BROODER LAMP

Zoo Med's most popular Clamp Lamp fixture is available in three sizes: 5.5" (14 cm), 8.5" (22 cm) or 10" (25 cm) diameter domes. Made of heavy gauge painted aluminum. All three models have a ceramic socket. UL rated for safety.

Item #	UPC
ITEM# LF-11 5.5" (14 cm) - Up to 100 Watts	
ITEM# LF-12 8.5" (22 cm) - Up to 150 Watts	
ITEM# LF-15 10" (25 cm) - Up to 250 Watts	

PROFESSIONAL SERIES DIMMABLE CLAMP LAMP

Use with Zoo Med's Daylight Blue™, Nightlight Red™, Repti Basking Spot Lamp®, Nocturnal Infrared Heat Lamp and Repti Tuff Splashproof Halogen lamps up to 100 watts maximum.

Includes dimmer switch.

*Not for use with ceramic heat emitters, PowerSun® UV lamps, fluorescent lamps or any incandescent lamp exceeding 100 watts.

ITEM# LF-13 8.5" (22 cm) - Up to 150 Watts	
--	---

WIRE CAGE CLAMP LAMP

The "open wire cage design" prevents the accumulation of "back heat" making it the safest clamp lamp available for use with high-heat producing ceramic heat emitters. Can be used with PowerSun® UV mercury vapor lamps, basking spot lamps, infrared heat lamps and ceramic heat emitters up to 150 watts. Includes on/off switch and ceramic socket. UL rated for safety.

Use with Zoo Med's Ceramic Heat Emitter. (pg. 22).

ITEM# LF-10

ITEM# TC-20 | For up to 30 gal.

Painted Turtle
Chrysemys picta

TERRA PUMP™ AQUATIC HABITAT DRAIN PUMP

Simplify water changes with Zoo Med's Terra Pump Aquatic Habitat Drain Pump! The powerful motor will drain most habitats in under 5 minutes and will refill with the same speed. The Terra Pump is engineered with side mounting suction cups at the intake line, so you can secure the device to the glass and have it auto shut off once you've drained to the desired level. When it's time to refill the habitat, you can avoid multiple trips with heavy buckets by placing the pump in a bucket of clean water and having it effortlessly refill your habitat. The pump has a "5 feet max head", which means it's powerful enough to deliver water into the habitat 5 feet above the reservoir it's pumping from. Works with freshwater or marine aquariums, paludariums, and turtle tanks.

ITEM# TC-70	0 97612 02370 1
-------------	-----------------

AQUATIC TURTLE

TURTLEHERM™

An automatic, preset aquatic turtle heater with thermostat maintains water temperatures at 78°F (26°C). Features digital temperature display, fully submersible and suction cup mounting. Keeps aquatic turtles healthy and happy. Helps prevent loss of appetite due to cold water temps!

- Mounts on the side or back glass wall of your aquatic turtle's habitat with included suction cups.
- Fully submerge heater in water before plugging the heater into an electrical outlet. Safety shut-off activates if removed from water.

TURTMATIC®

Automatically feeds your turtle daily. Can be used to feed your turtle while you are away, or to feed them on a routine schedule each day. Can be mounted anywhere on your tank with the ability to rotate 360°. Zoo

Med's Aquatic Turtle Food bottles screw directly into the feeder top, increasing food capacity. An available side mounted port allows you to attach an air pump, providing positive pressure to feeding chamber reducing humidity and prolonging freshness. Uses three AA batteries (included).

ITEM# TF-10

FLOATING TURTLE FEEDER™

Floating "fish-shaped" feeder releases turtle food pellets when bumped! Enjoy watching your turtles forage for food just as they do in nature. Better than dumping food directly into the water.

ITEM# TA-41

TURTLE HUT

If you want the look of a natural log hiding place for your reptiles with the convenience, strength, and washability of ceramic, then Zoo Med's Turtle Hut is for you. Inert material means it won't mold and is easy to sterilize. It can be submerged in water for aquatic turtles, newts, and even shy fish or used on dry land for any species of reptile or amphibian.

TURTLE LEAF LITTER

Recreate the natural habitat of many aquatic turtles with Zoo Med's Turtle Leaf Litter. These Jackfruit Tree (*Artocarpus heterophyllus*) leaves will slowly break down over time adding beneficial tannins and organic compounds to the water. This can reduce stress in turtles by conditioning the water and slightly tinting the water. Sunken leaves can also provide hiding and foraging areas for turtles who may tear up and eat these non-toxic leaves.

ITEM# ATL-10 | 1 oz. (30 g)

0 97612 20165 9

FLOATING TURTLE LOG

The natural looking Floating Turtle Log provides security, comfort, and stress reduction for aquatic turtles, newts, frogs, mudskippers, and tropical fish. This hollow resin log floats just at the surface so that turtles can bask on top of it or hide submerged inside. Bottom-weights prevent the log from rolling over, even with two 4" (10 cm) turtles on top.

ITEM# TA-40

0 97612 62400 7

AQUATIC RIVER PEBBLES™

A natural pebble substrate for aquatic turtle habitats that creates a river bed look in your enclosure. Safe for all sizes of aquatic turtles. Easy to clean/reusable.

ITEM# TP-10 | 10 lb (4.5 kg)

0 97612 74210 7

TURTLE TUB

Zoo Med's Turtle Tub replicates the "pond" environment that aquatic turtles naturally live in with its built-in land and water area. The large land area allows natural basking and egg laying behavior. Opaque walls help in reducing stress. Lightweight and easy to clean. Made from 100% recycled material!

Kit Includes:

- Turtle Tub™
- Reptile Lamp Stand
- POWERSUN® UV & Heat Lamp - 100W
- Mini Deep Dome Lamp Fixture
- Turtle Clean™ 30 Canister Filter
- ReptiSafe® 8 oz. (.23 L)

TORTOISE & BOX TURTLE

NEW

OUTDOOR DOUBLE WALLED TORTOISE HOUSE

Housing tortoises outdoors can provide an array of benefits including access to natural UVB light, space to exercise, and natural grazing opportunities. Zoo Med's Outdoor Tortoise house is the perfect solution to provide shelter from wind, rain, and chilly weather for outdoor tortoises. Paired with appropriate heating elements, this house provides a cozy retreat on cool days, and a comfortable place to sleep any night!

ITEM# TTO-1 | 45" x 30" x 29" (114x76x74 cm) 

NEW

TORTOISE HOUSE HEATER

Keep your outdoor pet warm throughout the night with Zoo Med's Tortoise House Heater. With 275W of power available and a built-in fan, it can maintain a consistent and comfortable set temperature between 70 and 90°F. With safety and efficiency in mind, this thermostatically controlled heater features an auto-shutoff mechanism and operates only when needed. Built to last with all steel construction, ETL laboratory tested for safety, and covered by a 1 year Zoo Med Guarantee.

ITEM# THH-275 

TORTOISE HOUSE

A home for your pet tortoise or box turtle. Wood-sided (for privacy) design preferred by professional tortoise keepers. Use indoors/outdoors. Place outside in a garden to provide beneficial sunlight/UVB rays. Includes private weatherproof "sleeping" area and lockable wire safety cover. Easy to assemble. Removable end panel to connect a second Tortoise House to double the space!

Learn more on  YouTube

ITEM# TTH-1 | 36" x 24" x 12" (91x61x30.5 cm) 

TORTOISE PLAY PEN

Outdoor shelter, exercise pen and food grazing enclosure for tortoises. Open bottom to place on your lawn and watch your tortoise feed on grass. Allows your tortoise to absorb natural UVB rays from sunlight, which is very important for their health and shell growth. Complete with a "private sleeping area". Easy to assemble.

ITEM# TPP-1 | 19" x 16" x 39" (48x41x99 cm) 

EASY-FOLD TORTOISE YARD

OPEN SIZE:
63" x 47" x 23.5"
(160x119x60 cm)

CLOSED SIZE:
63" x 24" x 5.5"
(160x61x14 cm)

Zoo Med's Tortoise Yard is an excellent tool to offer enriching outdoor time for many species of pet reptiles. Open bottom for grazing on fresh grasses and weeds which is very beneficial for herbivores and omnivores. Basking in natural, unfiltered sunlight provides many benefits for health and wellness.

- ½" x ½" wire mesh keeps pets contained and protects them from predators.
- Solid wood top and side panels provide shaded area with protection from sun and wind.
- No assembly needed! Yard folds out easily and can be moved as sun, shade, and food opportunities shift.
- Folds flat (63" x 24" x 5.5") for storage and moving.
- Lockable top opening provides easy access for animal care.
- Large 63" x 47" space encourages exploration, movement and exercise.

ITEM# TTY-1 

TORTOISE & BOX TURTLE

GRASSLAND TORTOISE FOOD

Correct fiber and protein levels for normal growth and proper shell development of grassland tortoises. Natural with Added Vitamins, Minerals and Other Trace Nutrients.

Contains:

- Coarsely ground timothy, Miscanthus, and alfalfa grasses to provide important long-stem fiber.
- Cold pressed milled production maintains the integrity of all the long-stem fiber.
- Made with enticing fresh endive, escarole, and dandelion greens.
- Contains a probiotics to help maintain digestive health, crucial for hind-gut fermenters like tortoises.

Great for Grassland Species such as:

- Russian Tortoise
- Pancake Tortoise
- Sulcata Tortoise
- Greek Tortoise
- Leopard Tortoise
- Hermann's Tortoise
- Desert Tortoise

DRAGON FOOD

Zoo Med's Dragon Food is a tailored diet for bearded dragons' age-specific needs. Available in Juvenile and Adult formulas, the diets feature bearded dragon favorites like clover, dandelion greens, and Miscanthus grass to provide important long-stem fiber. Includes calcium-rich black soldier fly larvae, enticing mango fruit, and probiotics to maintain digestive health. This diet helps ensure all essential nutrients are offered to pets and fills in nutritional gaps that other food choices like live insects and produce often miss. This food is natural with added vitamins, minerals, and other trace nutrients. Made with NO WHEAT OR SOY, and no artificial colors, flavors, or preservatives.

CHICKEN BANQUET MINERAL BLOCK

Chicken Banquet Mineral Block is designed for backyard laying hens to add necessary calcium to your bird's diet while also allowing for natural pecking behavior. This formula contains a mixture of dried mealworms and nutritious grains and seeds (organic corn, organic milo, organic wheat, and sunflower seeds) in a solid calcium base. It's great for optimum bone health and egg production of your birds. May help reduce aggression within your flock by providing the more dominant hens with an alternative pecking target.

ITEM# BB-CKL | 6.17 oz (175 g)

SMALL ANIMAL MINERAL BLOCK

A supplemental calcium-based block with dried apple, spinach, and rose petals. Allows for normal chewing behavior and can help keep teeth trim while providing a treat.

ITEM# SA-20 | 0.85 oz (24 g)

CRESTED GECKO FOOD

Premium blend gecko food including sustainable black soldier fly larvae. Formulated with pro- and prebiotics for digestive health. Made with organic banana, mango and papaya. Contains paprika, (a natural color-enhancing carotenoid). No artificial colors or preservatives. Great for a large variety of species!

Including:

- All New Caledonian geckos species (e.g. crested geckos, gargoyle geckos, leachianus, etc.),
- Day geckos
- Emerald skinks (*Lamprolepis smaragdina*)

WHAT'SUPP?

What supplements does my reptile need?

START HERE

My reptile **ONLY** eats whole, vertebrate prey

NOTE: This is a general guideline, some species may benefit from a more advanced supplement schedule, sometimes utilizing all 4 supplements. Talk to your breeder, retailer, or Zoo Med Customer Service for details.

Your reptile probably doesn't need nutritional supplements.

WHY? Whole, vertebrate prey are well balanced.

Your pet needs nutritional supplements.

WHY? Most commercial insects and produce (greens, vegetables, fruit) are deficient in key nutrients compared to what your reptile would eat in the wild.

Follow the diagram to determine which supplements your pet needs.

My reptile lives outside with unfiltered sunlight.

YES

NO

My reptile is...

DIURNAL
(active during the day)

CREPUSCULAR OR NOCTURNAL
(active at dawn/dusk or night)

My reptile's habitat has a UVB lamp
(e.g., ReptiSun® lamp)

NO

YES

Most Diurnal reptiles need UVB. Double check your species requirements!

My reptile's habitat has a UVB lamp

NO

REPIVITE™ without D3 & **REPTI CALCIUM® without D3**

WHY? Sunlight includes UVB and allows animal to produce their own vitamin D3. They likely do not need extra vitamin D3 supplemented in their diet.

REPIVITE™ with D3 & **REPTI CALCIUM® without D3**

WHY? UVB allows animals to produce their own vitamin D3, so they likely do not need extra D3 regularly. ReptiVite™ with D3 ensures it is supplied in trace amounts.

REPIVITE™ without D3 & **REPTI CALCIUM® with D3**

WHY? Crepuscular species can often get adequate vitamin D3 via their diet. Without UVB, ensure they are supplemented regularly with Repti Calcium® with D3. Complement with ReptiVite™ without D3 to ensure other trace nutrients are supplied.

REPTIVITE™

Zoo Med is proud to offer ReptiVite™, a complete vitamin, mineral, and amino acid complex specifically formulated for reptiles and amphibians. ReptiVite™ is calcium-based to ensure healthy bone growth with the correct 2:1 calcium to phosphorus ratio. Originally developed for the San Diego Zoo to correct soft-shell problems in turtles, it is now used by some of the most respected zoos and animal parks throughout the world. The first reptile vitamin to include the complete amino acid complex, an essential component in protein digestion. ReptiVite™ does not contain artificial additives or fillers like soy, yeast, or sucrose. Use 2-3 times weekly on your reptile's food.

SAMPLE CRICKETS DUSTED IN SUPPLEMENTS

REPTI CALCIUM®

Zoo Med's Repti Calcium® With or Without Vitamin D3 is a phosphorus-free calcium supplement for reptiles and amphibians. We use only Precipitated Calcium Carbonate which is white in color and is lead free. Impurities in other sources of calcium carbonate (e.g. Oyster Shell Calcium) cause the supplement to appear gray. With Repti Calcium®, you can take comfort in knowing that your reptiles are getting a highly bioavailable source of calcium carbonate that is free of harmful impurities.

ELECTROLYTE SOAK

Packed with ingredients to hydrate and supplement your scaled friends during their regular soak/bath. This powder is easy to use: just add 1 scoop (included) per 1 gallon of soaking/bathing water and allow your reptile to gain beneficial nutrients as they hydrate. This is a great recovery product for newly acquired or stressed reptiles (use up to 3 times a week). For healthy reptiles, use weekly to maintain adequate hydration.

- **Electrolytes** help regulate hydration
- **B vitamins** maintain energy levels
- **Vitamin C** is an antioxidant important for immune health
- **Beta-carotene** aids in pigmentation, and for some reptiles, aids in the formation of the antioxidant, vitamin A
- **Pre- and probiotics** support digestive health (stress can alter natural probiotic populations!)

AQUAROCKS NATURAL AQUATIC SUBSTRATE

Perfect substrate for all freshwater aquariums and paludariums. Naturally high iron content may boost plants' red color. Small pebble size maximizes surface area to house beneficial nitrifying bacteria, which breakdown waste and maintain a healthy habitat.

ITEM# AR-10 | 10 lbs (4.5 kg)

Emperor Tetra
(*Nematobrycon palmeri*)

AQUARIUM LEAF LITTER

Zoo Med's Aquarium Leaf Litter adds the perfect final touch to your aquarium's decor. It creates cover and areas to explore for curious fish, and allows for the growth of biofilms (naturally occurring microorganisms) that are a perfect natural food source for shrimp and fry. Consists of natural leaves from the jackfruit tree (*Artocarpus heterophyllus*), which act as a natural source of tannins to soften water and lower pH. Add Zoo Med's Aquarium Leaf Litter to simulate a beautiful naturalistic environment inside your aquarium!

ITEM# ALL-10 | 50 Leaves

AQUASUN® AQUARIUM TIMER

Automatically turns lamps on and off so you don't have to. Works with all types of aquarium lamps.

ITEM# AA-10

AQUASUN® DUAL TIMER

Easy-to-use dual outlet and timer provides natural day/night cycle for your fish, plants or live coral. 2 grounded outlets:

- 1 outlet controlled by timer
- 1 outlet continuously powered

ITEM# AA-14

AQUASUN® AQUARIUM CONTROLLER

24-hour programmable lighting timer provides a natural day/night cycle for your fish. Easy-to-program, analog design, and 3 prong receptacle for safety. 8 grounded outlets:

- 4 timer controlled outlets
- 4 continuous powered outlets

ITEM# AA-11

ULTRA SUN® T5 HO SUPER DAYLIGHT

6,500K high intensity super daylight lamp with UVA brings out the full colors of your fish, plants, corals and invertebrates. Ideal for all marine aquariums, reef tanks and fresh water aquariums where maximum daylight simulation is required. Combine with Zoo Med's Coral Sun® for all live coral and invertebrate reef tanks. Combine with Zoo Med's Flora Sun® for maximum plant growth and full color viewing of your fish and plants.

CORAL SUN® T8 ACTINIC 420

Coral Sun® is a high intensity actinic lamp with strong emissions in the short wavelength region of the spectrum, peaking at 420 nm. It promotes growth of zooxanthellae algae, essential for the growth and well being of all photosynthetic corals and invertebrates. This lamp simulates the short wavelength blue light which penetrates to reef depth in nature.

SPIRULINA 20 FISH FOOD FLAKES

Spirulina is a blue-green plant plankton rich in raw protein and seven major vitamins: A1, B1, B2, B6, B12, C and E. This flake food naturally contains beta-carotene, color enhancing pigments, and a whole range of minerals. In addition, it contains all essential fatty acids and the eight amino acids required for complete nutrition. Spirulina 20 flakes contain a full 20% spirulina and provides a complete high protein diet for freshwater fish, marine fish, crustaceans and invertebrates. Spirulina 20 is particularly ideal for the vegetative dietary needs of all african cichlids, live bearers such as swordtails, platies, guppies, and mollies, in addition to saltwater angels and tangs.

AQUA COOL

An aquarium cooling fan great for use with axolotls. A multidirectional discharge nozzle provides precise air flow. This side-mounted fan minimizes water splash on the motor and prevents accidental immersion. The low voltage (12V) provides maximum cooling by one of the following methods:

- Direct the nozzle upwards toward the aquarium lamp fixture to dissipate the radiant heat.
- Direct the nozzle downwards so that air flows over the surface of the water increasing evaporative cooling.

ITEM# AA-13 

AXOLOTL

Ambystoma mexicanum

DIGITAL AQUARIUM THERMOMETER

Fully submersible digital aquarium thermometer perfect for quickly gauging aquarium

temperatures. Suction cup secures to the glass and digital readout faces forward in the tank.

ITEM# TH-25 

MAGCLIP®

Industrial strength magnetic suction cup with interchangeable clips. Great for holding down aquarium heaters, filter intake or outtake tubes and airline tubing. Never replace your suction cups again!

PATENTED CUSTOMER FAVORITE

ITEM# MS-1 

AQUAPURE®

Instant water conditioner for all fresh and saltwater aquariums and paludariums. Removes chlorine and chloramines. Removes ammonia and helps prevent its accumulation.

Stimulates slime coat development, providing a natural protective barrier. Stabilizes pH.

NATURAL MOPANI WOOD

One of the hardest and densest woods available! This African wood will sink immediately and will not rot. It's high in tannins which can lower pH and create a natural "blackwater" effect many fish love. To reduce discoloration, Mopani wood can be soaked before placing in aquariums. Pairs well with aquarium plants.

BETTA BED™ LEAF HAMMOCK

A naturalistic leaf hammock for your Betta to rest on. Allows your Betta to rest near the surface of the water just like they do in nature. Attaches to Betta enclosure with suction cup (included).

ITEM# BL-20 | 3.25" (8.25 cm) 0 97612 24003 0

BETTA BED™ LEAF HAMMOCK

Large size, Leaf Hammock for your Betta to rest or sleep on! Great for large size Bettas such as: King Bettas, Dumbo, Rose Tail or Double Tail. Allows your Betta to rest near the surface of the water just like they do in nature!

ITEM# BL-21 | 4.25" (10.8 cm) 0 97612 24008 5

BETTA MOPANI WOOD

Creates “dark water” effect, simulating the Bettas’ natural habitat. Can provide additional shelter which may help reduce stress. Adds interest and enrichment to Betta tanks.

ITEM# BA-10

FLOATING BETTA EXERCISE MIRROR™

Small mirror suspended with floating ball. When your Betta sees his reflection he will “exercise” his fins. Zoo Med exclusive!

ITEM# BE-10

CERAMIC BETTA LOG™

Small sleeping den or hide-out for your pet Betta friend. Sinking log provides shelter. Made of earth-friendly ceramic.

ITEM# FA-50

FLOATING BETTA LOG™

A natural-looking floating log for your pet Betta to sleep, play, breed, feed, or blow a bubble-nest in. Comes complete with top “feeding hole”. Helps relieve boredom from captivity. For use in a minimum 2 gallon Betta enclosure. Zoo Med exclusive!

ITEM# BL-10

BETTA TUNNEL

Attach the Betta Tunnel to the inside of a Betta’s habitat to encourage exploration, exercise, and other natural behaviors. Position the Tunnel about an inch under the surface of the water to allow your fish to rest on top as well as inside the tunnel. Multiple tunnels may be used to increase interest or create a fun course for your fish to swim through! Change the tunnel’s position occasionally to add interest and increase its enrichment value!

ITEM# BP-50

BETTA FLOATING LOUNGE

Provides a comfortable resting site that will always be an appropriate distance from the surface of the water. The naturalistic bamboo design fits in any habitat and has built in enrichment value as it floats around the habitat.

ITEM# BL-40

"TAKE ME HOME WITH YOU!"

CREATURES® DEN

Ideal for all ground dwelling tarantulas, insects and invertebrates.

Includes:

- Creatures® Thermometer
- Creatures® Natural Cork
- Creatures® Rock Dish
- Creatures® Soil (1 qt size)

ITEM# CT-6 | 20.5" x 10.5" x 8" (52x27x20.3 cm)

CREATURES® HABITAT KIT

Ideal for arachnids (including tarantulas), insects and other invertebrates.

Includes:

- Creatures® Cave
- Creatures® Soil (1 qt size)
- Naturalistic Flora
- Insect Guide

ITEM# CT-3 | 8.75" x 8.5" x 11.75" (22x21.5x30 cm)

CREATURES® DUAL DOME LAMP FIXTURE

A very small dome fixture for nano-size terrariums (10 gallons or smaller). 80 watts maximum combined wattage or 40 watts per socket. For use with Creatures® lighting products and Zoo Med's Nano lighting and heating products.

ITEM# CT-36

CREATURES® DOME LAMP FIXTURE

A very small dome fixture (3 1/2") for nano-size terrariums (10 gallons or smaller). Ideal for insects and other invertebrate pets. For use with Creatures® lighting products and Zoo Med's Nano lighting and heating products (lamps not included).

ITEM# CT-35 | 40 Watts Maximum

CREATURES® LED LIGHT

Long-lived, energy efficient 5 watt LED lamps. Ideal for insects and other invertebrate pets. Bright, naturalistic light promotes live plant growth.

ITEM# CT-5N | 5 Watts

CREATURES® LED BLACK LIGHT

An energy efficient 395nm blacklight that operates on 5 watts.

ITEM# CT-BL | 5 Watts

CREATURES® CREATURETHERM™

A 4 watt energy-efficient heater designed for use with glass terrariums. Helps maintain proper temperatures. Complete instructions enclosed.

ITEM# CT-30 | 4 Watts

CREATURES® DUAL THERMOMETER & HUMIDITY GAUGE

Allows precise monitoring of both temperature and humidity in your invertebrate's home. Temperature and humidity levels are extremely important for the long-term health of your invertebrates. Unique hook and loop backing enables easy removal for the cleaning of your invertebrate's enclosure.

ITEM# CT-11G

CREATURES® THERMOMETER

Liquid crystal thermometer which is essential for reading the temperature inside your invertebrate's enclosure. Adhesive backing mounts horizontally or vertically inside habitat. Temperature reads in Fahrenheit and Celsius.

ITEM# CT-10

**BLUE DEATH
FEIGNING BEETLE**
Asbolus verrucosus

CREATURES® SAND

An all-natural calcium carbonate substrate. Ideal for desert species of insects and other invertebrates. For increased humidity, mix with Creatures® Eco Soil coconut fiber substrate.

ITEM# CT-2W | 2 lbs

CREATURES® ECO SOIL

Compressed, expandable coconut fiber substrate for invertebrate pet habitats. Ideal for arachnids (including tarantulas), insects and other invertebrates. Increases humidity and promotes natural burrowing behaviors.

ITEM# CT-70

CREATURES® CREATURE FLOOR

100% natural cypress mulch substrate provides your terrarium with a natural “forest floor” look while retaining moisture to provide humidity to the enclosure. Can be mixed with Creatures® Eco Soil or Creatures® Soil.

ITEM# CT-71 | 1 Dry Quart

CREATURES® CREATURE SOIL

A proprietary blend of natural materials including peat moss, soil, sand & carbon. Ideal for arachnids (including tarantulas), insects and other invertebrates. Increases humidity and promotes natural burrowing behaviors. Great for live plants.

ITEM# CT-80 | 1 Dry Quart

CREATURES® LEAF LITTER SUBSTRATE TOPPER

These natural leaves from the Cattapa Tree (Indian Almond Tree) provide cover for small, ground-dwelling creatures and enhance any naturalistic habitat. Clean and ready to be added to your terrarium.

ITEM# CT-88

CREATURES® CAVE

A natural half-log shelter for all kinds of invertebrates. Zoo Med's Creatures® Cave is a natural shelter that provides your creature pets with a sense of security in their habitat. Made from sustainably harvested wood grown in the USA.

ITEM# CT-82

CREATURES® NATURAL CORK

Natural cork bark for your invertebrate pet to climb on or hide under. Use to create an area of higher humidity in the habitat.

ITEM# CT-53

Great for Isopods!

CREATURES® CHOLLA BRANCH

Decorative climbing branch for all invertebrate creature pets. Encourages natural climbing behaviors. Washable.

ITEM# CT-51

NEW

CREATURES® ISOPOD FOOD

Zoo Med's Isopod Food is designed for the forager's palette of isopods and springtails. Naturally they enjoy decomposing plants, proteins, and fungi, and this diet ensures they have access to a similar variety of foraging items as they would in nature! The mix includes carrots, krill, mushrooms, and high-protein crumbles fortified with vitamins and minerals.

ITEM# CT-63 | 1.4 oz (39.7g)

CREATURES® ISOPOD BANQUET BLOCK

The Creatures® Isopod Banquet Block is an excellent way to fulfill isopods' high calcium needs. Hidden within the calcium base are irresistible, high-protein crumbles. Use these blocks to supplement your clean-up crew in a bioactive habitat or as part of your beloved colony's regular diet.

ITEM# BB-IS

CREATURES® BLUE DEATH FEIGNING BEETLE FOOD

Blue death-feigning beetles are adorable cornflower blue football-shaped beetles with a built-in trick of playing dead when they get scared. Our micro crumbles are an irresistible and nutritious high-protein meal for these beetles and other omnivorous invertebrates like cockroaches, crickets, isopods, other beetle species, and more!

ITEM# CT-65 | 2 oz (56.6g)

CREATURES® FEEDING BLOCK

An excellent enrichment and supplemental food item for beetles and roaches. Contains Creatures® Food Pellets in a vitamin-enriched calcium base. Long-lasting and easy to feed!

ITEM# BB-CR

CREATURES® FOOD PELLETS

Small (1/16") pellet size to accommodate most omnivorous pet invertebrates. Great food source for pet cockroaches, beetles and crickets. Added vitamins and minerals for invertebrates. No artificial preservatives, colors, or flavors. Feeding scoop included!

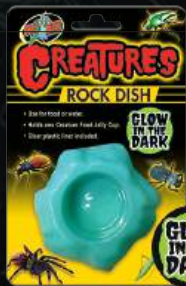

ITEM# CT-61

CREATURES® FOOD JELLY CUP

Hydrating food for pet beetles, crickets and other insects. The variety pack with three flavors that insects love. Convenient cups can be buried in the substrate or used with Creatures® Rock Dish.

ITEM# CT-60 | Banana, Nectar & Brown Sugar Flavors

CREATURES® ROCK DISH

Use for food or water. Holds one Creatures® Food Jelly Cup. Glows in the dark. Clear plastic liner included.

ITEM# CT-85

CREATURES® FEEDING TONGS

Ideal for praying mantises, insects and other invertebrates. Safer for you and your creature pets.

ITEM# CT-20 | 6 inch (15.2 cm)

CREATURES® CATCHER

Catch insects for your Creatures® Den or Creatures® Habitat. Safe, humane live insect catch and release trap. Kids have hours of fun catching, viewing and releasing insects. An ideal teaching aid for schools.

ITEM# CT-75

CREATURE VIEW MAGNIFIER

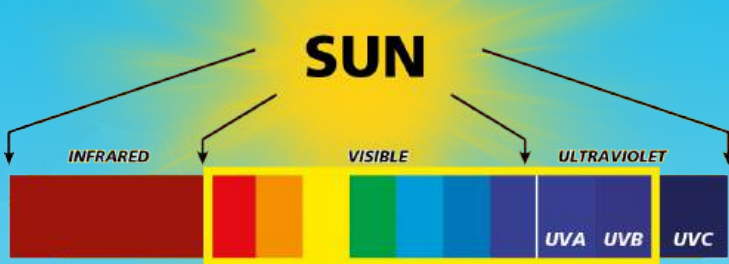

Beyond admiring their adorable antenna, lovely legs, and fascinating faces, this magnifier allows you to more carefully inspect your pet for changes like molts, eggs, and babies. Use the suction cup to attach the magnifier securely to the outside of your tank. Move it into position to view your creatures or hold the magnifier in hand to inspect substrate and décor.

ITEM# CT-15

AVIAN LIGHTING EDUCATION

It's essential for birds to have access to visible light, UVA, and UVB. These rays are found in natural sunlight and ensure birds' physical and mental well-being. The Avian Sun Lamp provides all three of these, making it the perfect tool to help your feathered friends feel their best, even when housed indoors!

Did you know?

UVA & UVB can't pass through glass!

VISIBLE LIGHT AND ULTRAVIOLET A (UVA)

- Birds have an additional color receptor in their eyes that allows them to see UVA! A bird's world is a little duller without it.
- **Did you know?** Some experts suspect feather plucking is partially related to the psychological stress of not seeing the world in full color.

HOW BIRDS SEE COLOR

ULTRAVIOLET B (UVB)

- UVB helps birds absorb calcium from their diet. Without adequate UVB and dietary calcium, birds can develop fragile bones, soft eggshells, and can even have seizures.
- **Did you know?** Another theory for feather plucking is that birds are trying to expose more skin to sunlight.

AVIAN SUN™ 5.0 UVB CFL

A full spectrum lamp designed to enhance the health and well-being of birds.

- Provides visible light, UVA, and UVB.
- Energy-efficient (26W), self-ballasted CFL.
- Use in the Avian Sun™ Deluxe Floor Lamp for superior light and UV output.

ITEM# AS-C5

AVIAN SUN™ DELUXE FLOOR LAMP

Easy-to-assemble, adjustable floor lamp designed for use with the Avian Sun 5.0 UVB CFL.

- Flexible gooseneck allows you to customize the height and position for use above almost any cage or perch.
- Built-in reflector maximizes light and UV output.
- Heavy, weighted base provides stability.

ITEM# AFL-10

AVIAN SUN™ DELUXE FLOOR LAMP AND 5.0 UVB CFL

AvianSun™ 5.0 UVB Lamp and fixture all-in-one!

Includes:

- Avian Sun 5.0 UVB CFL
- Avian Sun Deluxe Floor Lamp

ITEM# AFL-11

BANQUET® CUTTLEBONE

A calcium-rich, vitamin-fortified mineral supplement and beak conditioner. It provides long-lasting enrichment, enabling birds to engage in their natural chewing behaviors. Each package includes two flavors: Banana and Tropical Fruit.

Item #

UPC

ITEM# BB-CS2 | 3 oz. (85 g) - 2 Pack

Small

ITEM# BB-CL2 | 8 oz. (227 g) - 2 Pack

Large

BIRD BANQUET® Zoo Med's Bird Banquet® Blocks provide digestible calcium and help keep your bird's beak trimmed. They are also great enrichment items that allow birds to engage in natural chewing behaviors. The long-lasting blocks will keep your bird mentally stimulated as they work to uncover grit (which aids digestion) and other tasty treats hidden within the solid calcium base!

ORIGINAL FORMULA

Contains a mixture of nutritious seeds (white millet, canary grass seed and oat groats).

AVIAN CALCIUM

An ultrafine calcium supplement for all bird species and life stages. Made with precipitated calcium carbonate, a highly bioavailable source of calcium that is free of harmful impurities. Calcium supports strong bones and eggshells, healthy nerve and muscle function, and many other critical life functions. For optimal calcium absorption, provide UVB exposure through natural sunlight or the Avian Sun 5.0 UVB CFL.
