SNAKE STRIP™ U.T.H.

UNDER TANK HEATER

INSTRUCTIONS ITEM# RH-11

VERY IMPORTANT INSTRUCTIONS. PLEASE READ!

Please read complete instructions before using this product. If anything is unclear in this manual please feel free to contact us for clarification. If instructions are missing please phone (888-496-6633) or email: zoomed@zoomed.com and request a new set of instructions. You can also view the complete instructions on our website at: **www.zoomed.com**

WARNINGS – READ THE FOLLOWING BEFORE USING YOUR NEW SNAKE STRIP™ U.T.H. UNDER TANK HEATER:

WARNING: Risk of Electric Shock

For indoor use only. Not for use with aquatic habitats.

DO NOT submerge the heater for any reason.

DO NOT rest tank on cord or plastic housing. Use spacers where required. For use only with glass tanks. Not to be mounted to metal surfaces.

Discard pad if it shows any signs of deterioration (such as cracking, blistering, melting) or discoloration.

DO NOT use pins to attach heater.

Inspect cord periodically. Do not use if cord is damaged or frayed.

Follow all instructions. Misuse of this product can lead to damages. Not following the provided instructions voids any and all warranties.

WARNING: Risk of fire

NEVER mount this heater in a manner that would **encapsulate heat** (i.e. mounting it on the bottom of a terrarium and then setting the terrarium directly on any type of table or the floor/carpet). **Always** use the enclosed rubber feet to elevate your terrarium thus allowing heat to escape.
